WHEN YOU PLACE YOUR ORDER

Please read these suggestions. We make every effort to fill your order exactly as specified.

WRITE NAME & ADDRESS PLAINLY

Many delays occur because of insufficient address. Print or write your full name carefully [Example: John B. Jones, or Miss Bernice M. Smith, or Mrs. John B. Jones, or Mary C. Jones (Mrs. John B.)] We ask this because housewives are apt to give their husband's name and initial one time and their own the next, making it difficult to identify correspondence. Then give street address or R.F.D. route, city or town, county and State.

NON-WARRANTY

We exercise due care in selecting our seed, bulbs, flowering and ornamental plants, berry plants, fruit and shade trees, and all other merchandise, but we give no warranty, expressed or implied, as to description, quality, productiveness, or any other matter on any merchandise we sell, and we cannot be responsible in any way for the crop or results.

If the purchaser does not accept the goods on these terms, they are at once to be returned.

Sales Tax Schedule

The following schedule will prove of assistance in determining the correct amount of tax:

Less than 15c.....	No tax
15c to 49c.....	1c
50c to 83c.....	2c
84c to \$1.16.....	3c
\$1.17 to \$1.49.....	4c
\$1.50 to \$1.83.....	5c
\$1.84 to \$2.16.....	6c
\$2.17 to \$2.49.....	7c

For each additional 33c add 1c tax.

EARLY ORDERING APPRECIATED

If you can anticipate your needs, and place your order early, we will appreciate it. We handle a tremendous volume of mail order business during the planting seasons. By ordering early you get extra special attention.

HOW TO SEND MONEY

Amounts of \$1.00 or less may be sent in stamps, preferably in two and three cent denominations.

If you send currency or silver, be sure to send by registered mail.

Postoffice or Express Money Orders or Bank Drafts are equally satisfactory, and need not be registered. If you send a Cashier's Check or Bank Draft drawn by your home-town bank, have it made payable to yourself and then endorse on the back "Payable to Chas. C. Navlet Co." This will help to avoid possibility of error, and give us a record of whom the check is from.

Please do not overlook adding Sales Tax to the amount of your order. Thank you.

SAFE ARRIVAL ASSURED

We hold ourselves responsible for the safe arrival of goods in first-class condition. Our packing is in the hands of experts. If the goods do not arrive in first-class condition, kindly return them with the wrapper, at our expense and the order will be immediately refilled.

Visitors Welcome

Our nursery where we grow thousands upon thousands of shrubs and roses, is located on El Camino Real—the old main San Francisco Highway, 1½ mile south of Sunnyvale. Open Sundays from October to June.

Flowers-by-Wire

FLOWERS FOR ALL OCCASIONS

We maintain Flower Shops at San Jose, San Francisco and Oakland. Our staff of Artists design and execute floral offerings and arrangements for any occasion, with satisfaction and credit to you. Artistically decorated Plants and Ferns to bring sunshine to shut-ins, Hospital Patients, offices, etc. You may place an order at any one of the Navlet Stores for delivery from the others.

As Bonded Members of the world-wide Florists Telegraph Delivery Association (FTDA) we can guarantee delivery of Fresh Flowers and Plants for any occasion almost anywhere.

LAWN AND GOLF COURSE SEED

PLEASE NOTE: Write for prices on larger quantities; Grass seed prices fluctuate with the market and are not guaranteed. We prepay charges within fourth zone on lots up to and including 10 lbs.

BENT, GOLF-A-LAWN (*Agrostis tenuis Astoriana*)—This strain has a wide range of adaptability and is especially suited to the heavier soils. It spreads from underground creeping roots which produce a splendid upright growth of fine texture and of a rich green color. Makes a permanent turf which will stand hard usage. Unexcelled in combination with other turf-forming grasses for the home lawn, such as is to be found in our A-1 Mixture. Especially fine for Putting Greens, Bowling Greens, Athletic Field Mixtures and Estates. Certified Seed: 1 lb., \$1.75; 10 lbs., \$15.00. (Sow 1 lb. to 350-500 sq. ft. of area).

BENT, SEASIDE (*Agrostis stolonifera maritima*)—Often referred to as Coos County Bent, Cocoos Bent. A true, stoloniferous, creeping bent. As its name implies, it thrives in the lighter soils adjacent to the sea coast. Makes a splendid, permanent turf either used grasses. Certified Seed: 1 lb., \$1.75; 10 lbs., \$15.00. (Sow 1 lb. to 350-500 sq. ft. of area).

BERMUDA GRASS Devil Grass (*Cynodon dactylon*)—Forms abundant creeping underground stems. Thrives in all types of soil when well-drained. Shows a notable preference for compact soils such as clays and clay loams. Thrives in interior valleys. Turns brown in winter. Will not germinate excepting under several weeks of hot, humid weather. 1 lb., 65c; 10 lbs., \$6.00. (Sow 1 lb. to 300 sq. ft. of area.)

CHEWINGS FESCUE (*Festuca rubra var. fallax*)—A hardy, low-growing grass, producing very fine, needle-like spears which rarely exceed 6 inches in height. Dense, turf-forming habit. Very hardy on the thin or poorer types of gravelly and sandy soils. Does well in sun or partial shade. 1 lb., 85c; 10 lbs., \$8.00. (Sow 1 lb. to 150 sq. ft. of area.)

There are many advantages in securing carefully executed formulas of turf and lawn grass mixtures for definite exposures and soil conditions. No one grass, or grass seed mixture will thrive under all exposures surrounding a home, especially if there are hedges or trees to create shade.

Species of grasses vary in their range of adaptation to soil and climate and exposure; consequently, it stands to reason that, using several congenial grasses together, the chances of securing a good permanent turf are correspondingly increased.

Single strain lawns, of Bent, or Fescue, require considerably more attention than the average Home Gardener cares to or has the time to give them, inasmuch as each type of lawn grass seed has its good and its poor or rest periods.

A-1 SPECIAL TURF MIXTURE—Contains a portion of Bent in combination with other fine-leaved, turf-forming, long-lived grasses. Improves with age. No Rye or Clover. We offer this as the best blend possible to obtain for a permanent turf. Unexcelled. Has produced many of the finest and most beautiful lawns in the Bay Area. Freest from weeds of any mixture. 1 lb., \$1.25; 10 lbs., \$12.00. (Sow 1 lb. to 250 sq. ft. of area.)

HARDY PARK MIXTURE (formerly sold under the name of Golden Gate Mixture Improved)—A popular mixture of hardy grasses with a little Clover, which grows quickly and stands considerable abuse. Thrives in light and medium heavy soils. 1 lb., 55c; 10 lbs., \$5.00. (Sow 1 lb. to 100 sq. ft. of area.)

BLUE GRASS, KENTUCKY (*Poa pratensis*)—Produces a firm, velvety, elastic turf of deep, vivid green. Thrives in open situation away from Summer Fogs. Roots deeply, forming a permanent turf on the heavier types of soils. Unsatisfactory on sandy soils.

Gold Seal—Triple-re-cleaned; plump, heavy seed; purest and highest germinating seed possible to secure; freest from weeds of any Blue Grass. (Weighs 30 lbs. to the bushel.) 1 lb., 80c; 10 lbs., \$7.50. (Sow 1 lb. to 225 sq. ft. of area.)

Extra Fancy—Specially re-cleaned. Far superior to and more economical than cheaper grades. (Weighs 25 lbs. to the bushel.) 1 lb., 70c; 10 lbs., \$6.50. (Sow 1 lb. to 175 sq. ft. of area.)

LIPPIA (*Lippia repens*)—See description below. Pkts. 25c; $\frac{1}{16}$ -oz., 40c; $\frac{1}{4}$ -oz., \$1.40; $\frac{1}{2}$ -oz., \$2.10.

ROUGH STALKED MEADOW (*Poa trivialis*)—A spreading species with narrow, flat, dark green leaves, similar to Kentucky Blue Grass, to which it is related. Starts quicker and spreads faster to form a permanent turf, in a shaded position. 1 lb., 85c; 10 lbs., \$8.00. (Sow 1 lb. to 150 sq. ft. of area.)

RED TOP (*Agrostis alba*)—Gives a quick growth and succeeds in all soils, doing best on moist soils. Used in blends with other grasses. 1 lb., 60c; 10 lbs., \$5.50. (Sow 1 lb. to 350 sq. ft. of area.)

RYE, PACEY'S PACIFIC RYE (*Lolium perenne*)—Valuable in lawn as a nurse grass and where quick results are desired. Leaves narrow, flat and smooth, the under side being glossy. Is also known in the Bay District as Pacific Rye. It is a short seeded type, more desirable than Australian Rye. 1 lb., 40c; 10 lbs., \$3.50; 20 lbs., \$6.50. (Sow 1 lb. to 100 sq. ft. of area.)

WHITE CLOVER (*Trifolium repens*)—Of dwarf habit, making an excellent turf that stands constant tramping. Used considerably in mixtures as a nurse crop as it germinates rapidly. 1 lb., 75c; 10 lbs., \$7.00; 20 lbs., \$13.00. (Sow 1 lb. to 200-300 sq. ft. of area.)

TURF AND LAWN MIXTURES**NAVLET'S EMERALD GREEN TURF MIXTURE**

A carefully blended mixture of permanent fine leaved deep green grasses without Bent, Clover or Rye. Will make a hardy, green turf the year round. Satisfactory for sun and half-shaded situations. 1 lb., 75c; 10 lbs., \$7.00. (Sow 1 lb. to 175 sq. ft. of area.)

NAVLET'S SAN JOSE HIGH SCHOOL LAWN MIXTURE

A combination of ruggedness with a smooth, velvety appearance is given by this sturdy mixture. Thrives in heavy soil, where summers are hot. 1 lb., 75c; 10 lbs., \$7.00. (Sow 1 lb. to 150 sq. ft. of area.)

PANAMA-PACIFIC LAWN GRASS—Our own carefully blended mixture with Clover of varieties which produce a thick velvety lawn, permanent and hardy in most soils. This mixture is one of our best sellers and has proven extremely satisfactory. 1 lb., 60c; 10 lbs., \$5.00. (Sow 1 lb. to 150 sq. ft. of area.)

SHADY LAWN GRASS—This is a special blend of shade-loving grasses for lawns facing the North without much sunshine and shady spots under trees and places where there is little direct sunlight. It will quickly produce an abundant and even growth of beautiful deep green turf. Harmonizes closely in color and texture with A-1 Turf Mixture and Navlet's Emerald Green Turf Mixture. 1 lb., 85c; 10 lbs., \$8.00. (Sow 1 lb. to 175 sq. ft. of area.)

LIPPIA PLANTS—This creeping lawn plant solves the problem of maintaining a beautiful lawn through the dry California Summer. Requires little or no water. Resembles Clover in appearance. \$1.25 per slab, (Will cover area of 100 sq. ft.), shipped at purchaser's expense.

"THE QUEEN OF THE GARDEN"

RAPTURE

After the dormant season, roses cannot be handled "bare root". They must be planted in containers. The prices remain the same, excepting that they must be shipped by express, charges collect. The dormant season extends from November to April.

We grow our own roses at our Highway Nursery, located on the El Camino Real, 1½ miles south of Sunnyvale toward Santa Clara. Why not visit our fields during the Summer months?

We offer for our discriminating trade, only the most carefully selected, graded stock of 2-year old, budded field grown roses. We have a ready market for the light grades, elsewhere.

Our rose bushes are handled as nature intended. They are not dug prematurely in full foliage, nor are they in any way treated to preserve them.

We are very careful to bud our roses only on such wild understocks as are definitely superior for the variety. This enables us to offer bushes with a more vigorous constitution, evidenced by an extended season with more profuse blooms and long life.

EVERY ROSE GUARANTEED TRUE TO NAME, OR YOUR MONEY REFUNDED. If for any reason any Rose should arrive unsatisfactory in quality, return it at our expense and we will promptly refund the purchase cost.

A few of these plants will furnish endless quantities of deliciously clove-scented flowers for cutting.

GOLDEN GLOW—A flower of striking appearance. Fringed petals of gold, with the glow of the setting sun, streaked and feathered crimson.

HARVESTER—A clear-cut, well formed, immaculate white with a pleasing spicy odor. Disbudded, the flowers attain enormous size and stand majestically atop long, stiff cutting stems.

IVORY—Beautifully fringed, intensely fragrant, with splendid cutting stems, this rich ivory white ranks with the best commercial sorts.

JANE SUTHERLAND—A flower of impelling charm, with a dainty, fluffy grace. The fleeting, spicy perfume of this lovely warm, flesh pink flower adds mightily to its delight.

LUCKY STRIKE—A splendid sparkling clear golden yellow surpassing the prize winning "Main Sunshine" in the number of enormous blooms. It is indeed well named, for yellows of its calibre are rare.

NAVLET'S SCARLET—This plant is easily the strongest grower in our fields. Perfectly formed, full rounded blooms of intense, brilliant scarlet, on long, stiff cutting stems. Perpetual blooming habit. Delightful spicy scent.

PINK ABUNDANCE—A favorite, because of the abundance with which it produces its crisp, pink blooms without the vestige of any other color. You will find great delight in its sheer loveliness.

PINK SPECTRUM—A new variety which tops the list in its color class—a fascinating shade of deep enchantress pink which never fails to please. The flower, aside from its delicate beauty, has everything to commend it. It is deliciously fragrant, its stems are long, strong and wiry, it keeps well as a cut flower, it blooms over a long season.

ROSALIND—A mammoth flowering variety which supplies its bright, clear, rich cerise, long stemmed blooms in the greatest profusion over a long period. Showy in mass in the garden, and attractive as a cut flower.

SENATOR—A fragrant flower of great charm. Exquisitely chiseled petals of cold, glistening, snowy white. Very prolific and vigorous bearing continuously over a long period. The cut flowers retain their freshness unusually long.

SPECTRUM—Unquestionably one of the very best of its color. The scintillating shade of spectrum red has a dashing captivating beauty. The flower is noted for its size and excellent form. The stems are strong and stiff.

LADDIE (Improved)—'Tis difficult to believe this superb flower could be improved in habit and type. It is one of the largest and most beautiful carnations in existence. Glowing, unusually rich shade of salmon-pink. Well proportioned in every sense, even to its strong stems well over 24 inches long. 25c ea.; 6 for \$1.25. Postpaid.

CONIFEROUS TREES AND EVERGREENS

(Conifers are cone-bearing evergreen trees and shrubs)

No home-grounds complete without them. They are beautiful both in winter and summer; in winter they supply the only living green in the landscape, and in summer, their rich, dark foliage contrasts beautifully with the brighter tones of deciduous trees and shrubs. They make an ideal background for any house, giving a gracious and dignified appearance which cannot be produced in any other manner.

ABIES (See Fir).

ARAUCARIA Imbricata (Monkey Puzzle) (Con. T) Tree of unusual form, branches in whorls. Foliage overlapping like shingles. 10 to 12 in., potted, \$1.00.

TASTY SMALL FRUITS AND BERRIES

All Prices Postpaid

STRAWBERRY "Mastodon"

CURRANTS

Cherry. Best suited to Bay Area. Produces freely of excellent bright red fruit in immense clusters.

GOOSEBERRIES

Champion. Medium size, very smooth, thick-fleshed berries with few, small seeds. Free of Mildew.

Downing. The favorite large, pale green berried sort, very juicy and has few seeds.

LOGANBERRY

Raspberry-Blackberry Hybrid. Enormous crops of large, long, dark red berries with a rich sub-acid flavor. Prized for pies, canning, jams and jellies.

RASPBERRIES

Gregg (Black)—Plants are strong, hardy and productive. The midseason berries are firm and sweet. Adapted to Central California conditions.

Ranaree (St. Regis)—The best for the Bay Area. The plant is vigorous and hardy and sends up suckers freely. The berries are medium in size, bright red in color. They are firm and deliciously flavored. The season is early, and very long.

NEW BOYSEN BERRY

Fruit closely resembles that of the Youngberry, but has a finer flavor, is less seedy, at least half again as large, and about 10 to 15 days later. Bears a fine second crop. Vines are vigorous and prolific, fruiting the second year. Considered to be slightly more acid, and to contain more sugar and pectin than the Youngberry, which makes the fruit well suited for Jams, Jellies, Pies, and accounts for the fine flavor. Delicious served fresh with cream. Tip roots 25¢ each; 5 for \$1.00.

PRICE SCHEDULE

All prices Postpaid

Except as otherwise noted:

Blackberry, Currant, Loganberry, Raspberry, Youngberry..... 20c each; 12 for \$2.00

(An assortment may be made of any 12 or more in the same price group to gain the advantage of the quantity price.)

CULTURAL HINTS

Pruning the Cane Fruits—Blackberries, Dewberries, Raspberries, etc. The cane fruits bear on the growth of the previous season. The first thing to remember then is: cut out old canes as soon as they have fruited. Better done soon as possible after the crop is harvested, although it may be deferred to Fall or Winter. Over prolific varieties, should have all but four or five canes cut out to the ground. Cut back the new canes and their side shoots a third or so in the winter or early spring.

Spraying the Cane Fruits—Refer to Pest Control Chart, Page 61 under "Cane Blight", "Red Berry", Mildews".

YOUNGBERRY

A vigorous grower and an enormous producer. Canes of trailing habit. The fruit is of good size, dark red in color—almost reddish black when ripe—juicy, and sweeter than Loganberry when ripe. Ripens about the same time as Loganberry. Crops from about the end of May to the first of July.

BLACKBERRIES

Cory Thornless Mammoth—Thornless form of "Mammoth". Its smooth canes make it a very nice berry for the Home Garden.

Himalaya—One of the best for Central California. Bush is extremely vigorous, very spiny, trailing and an enormous producer. The fruit is of medium size, roundish in form, juicy and of good flavor. Season from June to late fall. Must be trellised. Requires less care than any other.

Mammoth—Extremely vigorous, trailing habit, rapid grower, heavy producer. The fruit is very long, large, jet black, very sweet and juicy. Very popular because it ripens early to midseason.

STRAWBERRIES

Banner—Still the favorite. Thrives where summers are cool. Beautiful big, deep red, round, richly-flavored berry. It bears consistently over a long period, from March to December. Plants are long-lived. Suited to eating fresh and canning. 30c doz.; \$2.00 per 100.

Mastodon—The best Everbearing variety for home use. Mammoth size berries, round, medium dark red. Bears late as Thanksgiving; the last picking being as large as the first. 50c doz.; \$3.50 per 100.

Nick Ohmer—The variety found most on the market in the Bay Area for table use. Not as good for canning as "Banner." A main season variety, with very glossy red fruit of excellent flavor. 35c doz.; \$2.50 per 100.

CONRAD'S NEW MAMMOTH RASPBERRY

A marvel for the home berry patch and commercial grower. The very firm, mammoth, deep red fruits are about twice the size of the Renaree, one of its parents. They are deliciously tart in flavor. Vigorous grower, producing fruits from tips of canes, backward along their entire length. Splendid shipper.

60c Each; 5 for \$2.50

PET FOODS, REMEDIES AND SUPPLIES

NAVLET'S AIR-WASHED BIRD SEED

We gladly quote quantity prices on request. (Add 10c first lb., 5c each additional 2 lbs., for postage).

We have but one object in mind in making our bird seed mixtures—to secure only the freshest, re-cleaned, air-washed seeds and to blend them in such proportions as will constitute a balanced ration. Navlet Bird Seed Mixtures always make friends of those who observe that there is no "filler" or wasted seed. The Birds like them to the last grain. Always feed Navlet's Song Restorer and Conditioner in connection with Navlet Mixed Bird Seeds in order to keep birds in prime health. **Always sold in bulk—always fresh.**

AVIARY MIXED BIRD SEED—A blend of Air-washed seed with Hemp, for Birds having plenty of exercise in large cages or aviaries. We do not recommend this for cage birds inasmuch as the hemp is inclined to make them sluggish. **1b. 10c; 3 lbs. 25c.**

CANARY SEED. Re-cleaned, 1b. 15c; 3 lbs. 40c.

DOMESTIC RAPE. Re-cleaned, 1b. 10c; 3 lbs. 25c.

FINCH MIXTURE. A mixed blend of seeds particularly adapted to the requirements and well being of Finches. **1b. 10c; 3 lbs. 25c.**

HEMP. Re-cleaned, 1b. 10c; 3 lbs. 25c.

LOVE BIRD MIXTURE. A well balanced blend of Air-washed foods essential to good health of Love Birds, Parrakeets, Java Sparrows, etc. **1b. 15c; 2 lbs. 25c.**

OAT GROATS. Re-cleaned. 1b. 15c; 2 lbs. 25c.

PARROT MIXTURE. Parrots, too, should have a balanced ration, to promote and sustain good health and plumage. Our Parrot Mixture is an ideal mixture containing necessary Seeds, Grains, Nuts and Crackers. **15c 1b.; 2 lbs. 25c.**

SMALL YELLOW MILLET. Re-cleaned, 1b. 10c; 3 lbs. 25c.

ROLLER MIXED BIRD SEED—The Roller requires special blends of healthful, song promoting seeds, differently combined and proportioned than for other birds. Ours is just this—and the seed used is of course Air-washed. **1b. 15c; 3 lbs. 40c.** No hemp.

SONG RESTORER AND CONDITIONER—A combination of Air-washed, select and finest quality ingredients that is a treat and stimulant for Canaries, Linnets, and Seed-eating birds. Fed in lesser amounts to birds in song, it keeps them well and healthy and builds up resistance against colds, etc. Good to the last grain. Unexcelled, for loss of voice, breeding and moulting birds. **1/4-lb. 15c; 1 lb. 50c.**

SPECIAL MIXED BIRD SEED—Our biggest seller. Has all of the goodness and health value possible to include in a balanced mixture. No Hemp. This Air-washed blend provides a sustaining diet for a cage bird in restricted quarters. **1b. 15c; 3 lbs. 40c.**

SUNFLOWER. Fancy re-cleaned, 1b. 15c; 2 lbs. 25c.

SWEET GERMAN RAPE. Re-cleaned, 1b. 15c; 2 lbs. 25c.

BIRD REMEDIES AND SUPPLIES

CRUSHED OYSTER SHELL. Hens will lay hard shelled eggs when supplied with this source of Calcium Carbonate. Sprinkle on floor of cage over Bird Gravel. **10c package.**

New Green "Bird Neponset" Paper Pots

Two important improvements, feature these New Pots: 1. Soft green color, which blends with foliage. Artistic linen finish. 2. Bottom has a new close-fitting reinforcing disc. This prevents roots from growing between sections and makes transplanting easy. Well worth the slight extra cost over the old red type.

Made of very tough, specially treated paper. Holds moisture very well.

STAKES FOR TIDY GARDENERS

Fertilizer Accessories

JECTOR—Fertilize while you sprinkle. Merely put a water soluble fertilizer like Amino-Phos, Sulphate of Ammonia, Bloodmeal, Nitrate of Soda, etc., in a container or bucket; fill with water; drop suction tube into solution; turn water on full force; and—Jector does the rest. Action visible at all times. Thoroughly soaks the ground, carrying fertilizer to the roots, thereby preventing burning. \$1.10 (\$1.20 PP).

SOILTEX—It pays to know if your soil is acid or alkaline. No technical knowledge required. Takes but a minute or two, for each sample of soil. This accurate, pocket size outfit will make 75 to 100 tests. Color chart with each set to indicate degree of alkalinity or acidity of the soil. \$1.00 each; \$1.10 postpaid.

Flower Holders

"CASA"—The best holder for artistic arrangement of flowers, in shallow bowls or vases. Flowers are held firmly in place at any angle. Piercing of stems by pins prolongs freshness of the arrangement. Because of its weight there is no possibility of tipping. Made of non-corrosive and non-breakable material. Comes in Green and Silver.

"TROMBONE" SPRAYER

FERTILIZERS, SOIL CONDITIONERS

Prices are extremely variable, therefore they are subject to change without notice. Quoted "F. O. B. our Stores in San Jose, San Francisco and Oakland," shipments are made "Charges Collect". Kindly ask for quantity prices. If small quantities desired by parcel post, kindly add 8c (eight cents) for the first pound plus 2c (two cents) for each additional pound to cover postage and packing. Please include Sales Tax.

A standard 4-inch flower pot will hold approximately 1 pound of the average fertilizer. A tablespoon will hold about an ounce.

Do not fertilize blindly. Test your soil with SOILTEX fully described under "Fertilizer Accessories" on Page 53.

Always soak the ground thoroughly after applying fertilizer. Plants can only use it in solution.

ADCO—Green or dried leaves, twigs, cuttings, prunings, lawn clippings and vegetable trimmings make excellent, rich manure treated with ADCO. One pound will convert 4 cu. ft. (1 wheelbarrow load) of dry refuse, or twice as much of green, in a few months. Clean, odorless, free of soil pests. 7½ lbs. \$1.00; 25 lbs. \$2.25 (Makes ½-ton of manure); 150 lbs. \$11.00 (Makes 3 tons of manure). Ask for Folder.

ALUMINUM SULPHATE—Acidifies soils. Apply about 1 oz. to each sq. ft., of soil area within the drip of Rhododendrons, Heathers, Azaleas, Laurels, etc. The Ladies protect laundered silk hose from runs by immersing for 30 minutes in half-pint of water containing two teaspoons Aluminum Sulphate (enough for 1 pair) at 100 degrees F. Dry at room temperature then launder again, rinse and dry. 2 lbs. 25c; 5 lbs. 50c; 11 lbs. \$1.00; 25 lbs. \$2.00.

AMMONIUM PHOSPHATE (Ammo-Phos) The Universal Fertilizer. 16% Nit. 20% PhosA. Unexcelled for rundown lawns, and for vegetables, deciduous and citrus trees, berries, vines, and the garden bed. Use 1 tablespoon to 3 feet of row. Dissolve 1 oz. in 1 gal. of water and apply to lawns with a sprinkling can or "JECTOR". To make a complete fertilizer, add 1 lb. of Sulphate of Potash to each 3 lbs. of Ammo Phos. 5 lbs. 50c; 11 lbs. \$1.00; 25 lbs. \$1.75; 50 lbs. \$3.00; 100 lbs. \$5.00. Ask for Folder.

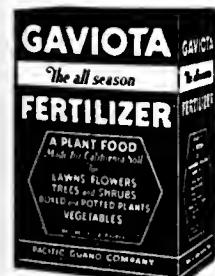

BLOODMEAL (Dried) 12-13% Nit. One lb. will fertilize 70 sq. ft. of lawn or garden. Dissolve in water and apply with "JECTOR". Mix with "Tree White" to repel deer and rabbits. Fertilize water lilies with it—does not injure fish. 3 lbs. 25c; 13½ lbs. \$1.00; 25 lbs. \$1.50; 50 lbs. \$2.75; 100 lbs. \$4.75.

BONEMEAL (Steamed)—7% Nit. 30% PhosA. Quicker acting than the raw form. Safest fertilizer for bulbs and general garden use. Apply 1 lb. to 25 sq. ft. of area. Alkaline in its soil reaction. Always use in hole at planting time. 5 lbs. 30c; 10 lbs. 50c; 25 lbs. \$1.00; 50 lbs. \$1.75; 100 lbs. \$3.00.

CALCIUM SULPHATE (Agricultural Gypsum)—Superior to lime for breaking up sticky soils. Neutral in soil reaction. Apply 1 lb. to 5 sq. ft. 2 tons per acre makes very striking effect on Black Alkali soils. 8 lbs. 25c; 20 lbs. 50c; 50 lbs. \$1.00; 100 lbs. \$1.50; 300 lbs. \$4.00; 500 lbs. \$6.25; 1000 lbs. \$10.00.

COTTONSEED MEAL—6½% Nit. 3% PhosA. 2% Potash. Stimulating plant food for Rhododendrons, Heathers, Azaleas, Camellias and other acid loving plants. Mix with soil or peat and scatter under plants, using about ½ to ¾ lbs. to the large size bush. 10 lbs. 75c; 25 lbs. \$1.55; 50 lbs. \$2.60; 100 lbs. \$4.20.

LEAF MOLD—For potting and garden soil mixtures—Rough. 5 lbs. 25c; Sack \$1.25; sifted and screened: Sack \$1.50.

The best complete fertilizer. Contains correct proportions of chemical and organic plant food elements, scientifically compounded to feed evenly over a long period. 4 to 5 lbs. will fertilize 100 sq. ft., of lawn, or garden area. 6% Nit. 9% PhosA. 6% Potash. 3 lbs. 30c; 10 lbs. 75c; 25 lbs. \$1.50; 50 lbs. \$2.50; 100 lbs. \$4.00. Ask for Folder.

LIME (Agricultural Shell Flour)—Apply to lime-loving plants yearly, otherwise only when soil requires it. Test with "Soiltex" outfit. Do not apply on lawns or plants which require acid soils. Calcium Sulphate better for breaking up sticky soils. Apply 1 lb. to 5 sq. ft. 100 lbs. sack \$1.25.

MANGANESE SULFATE—Apply to sweet soils (Sandy, marl, calcareous) to correct Manganese starvation, a condition which causes yellowing between veins of new leaf growth. Besides soluble Manganese, this product contains desirable Zinc, Magnesium and Calcium in available Sulfate form. Pelargoniums, Begonias, Cinerarias, Fuchsias, etc., use 1 lb. to 800 sq. ft.; Roses, use 1 lb. to 500 sq. ft.; Lawns, use 1 lb. to 700 sq. ft. Add a 3" pot full to each bushel of potting soil. 3 lbs. 55c; 10 lbs. \$1.60; 25 lbs. \$3.25; 50 lbs. \$5.95.

NITRATE OF SODA—15% Nit. Forces top growth of plants. Dissolve 1 tablespoon in 1 gal. of water and apply with "JECTOR" or apply 1 lb. to an area of 250 sq. ft. 3 lbs. 25c; 22 lbs. \$1.00; 50 lbs. \$2.00; 100 lbs. \$3.50. (Not Mailable.)

PEAT (Imported)—Breaks up hard, tight soils, and conserves moisture in sandy soils. Being free of weed seed and fungus it replaces Leaf Mold. 1 bale sufficient to cover an area 300 sq. ft. one inch deep. 10 lbs. 60c; Gunnysack \$1.00; ½-bale \$2.00; 1 bale \$3.50; 10 bales \$31.50.

SHEEP MANURE, Navco Pulverized—1.8% Nit. 1.2% PhosA. 2% Potash (average analysis). Invaluable for the beneficial soil bacteria it contains. Use 100 lbs. to a plot 20x20 ft. To make liquid manure for Pansies, Sweet Peas, Potted Plants, etc., soak about 2 lbs. in 5 gals. of water overnight. In paper-lined sacks, clean and odorless. 5 lbs. 25c; 10 lbs. 45c; 25 lbs. 65c; 50 lbs. \$1.00; 100 lbs. \$1.75; 300 lbs. \$5.00; 500 lbs. \$8.00; 1000 lbs. \$15.00

SOILKORECTIVE No. 8—Restores virgin soil vigor. Breaks up hard, impervious adobe soils. Stops cracking and consequent loss of moisture. Cleanses, purifies and re-introduces essential bacteria. Rake or spade it into soil and stir at intervals. Will not injure tender plants. Use 1 bag (100 lbs.) to 500 sq. ft., of area. 1 bag \$2.00; 3 bags \$5.25; 5 bags \$8.25; 10 bags \$15.00; 20 bags \$25.50. (Shipped freight collect).

STIM-U-PLANT—11% Nit. 12% PhosA. 15% Potash. Every lover of thrifty potted plants and ferns should use it. 30 tablets 25c, 30c postpaid; 100 tablets 75c; 1000 tablets \$3.50 postpaid.

SULPHATE OF AMMONIA—21% Nit. Quick acting plant and lawn stimulant. Dissolve 1 tablespoon in 1 gal. of water and apply with "JECTOR" to lawns. Apply 1 lb. to 250 sq. ft. 3 lbs. 25c; 10 lbs. 60c; 25 lbs. \$1.00; 50 lbs. \$1.75; 100 lbs. \$3.00.

SULPHATE OF IRON (Soiliron)—Intensifies coloring of flowers. Corrects chlorotic (lime excess) condition. Kills slugs and snails on contact. Can be used to rid lawns of Dandelion (See Planter's Guide Page 8). Use sparingly in connection with lily plantings. 6 lbs. 50c; 14 lbs. \$1.00; 25 lbs. \$1.50.

SULPHATE OF POTASH—50% Potash. Imparts vigor, stiffens stems, improves color. Apply 1 lb. to 250 sq. ft. of area. 2½ lbs. 25c; 14 lbs. \$1.00; 25 lbs. \$1.50; 50 lbs. \$2.50; 100 lbs. \$4.50.

SULPHUR (Agricultural)—Improves alkaline soils. Mix handful with bottom soil in hole when planting bulbs, roses, etc. Increases crop yields, controls wire worms, strawberry weevil, etc. Scatter 1½ lbs. to 100 sq. ft. or 5 sacks to the Acre. 10 lbs. 90c; 25 lbs. \$1.35; 50 lbs. \$2.25; 100 lbs. \$3.50.

See Page 51 for Complete line of Rodent Controls.

PEST CONTROL CHART

Numbers used in this chart correspond to those assigned to the INSECTICIDES AND FUNGICIDES listed on preceding pages. Where more than one number is shown, the Gardener has a choice of material to effect control. The order in which they are given indicates our preference, except 15-22 where either is equally effective.

We have indicated the period during which it is considered best to apply the Spray and Dust Materials listed as follows:

"D"—Dormant application during rest period in winter when deciduous trees have dropped their foliage.

"SD"—Semi-dormant application, when leaf and blossom buds are swelling and show pink in Spring.

"F"—Applications during period of leaf development and during full growth.

Where indicator is not shown, apply soon as insect or disease noted, or during full growth as the case may be.

Angle Worms—In Lawns and Moss. Use 46.

Aphis (Aphids or Plant Lice)—Curl and stunt tender leaves and blossoms and make leaves sticky with honeydew in which black Smut Fungus grows. 25-32-26-20-(9 & 45)-10a. 13a-34-21a (F).

Aphis Eggs—On Prune, Cherry, Almond and Peach Trees. 23, (D).

Aphis, Woolly—On Apple and Pear Roots 29-21a & 28.

Argentine Ants—Are carriers of Mealy Bug, Aphis and Scale. Kill in Soil with 2-29-25. Kill through workers with 1-3. Band trees and shrubs with 42d.

Army Worms—Larvae of night-flying insects. 36-11.

Bacterial Gummosis and other wounds of the bark, scrape off dead wood and paint wound with a paint made by mixing 8 with water.

Beetles—The 12-spotted green Lady Bug is typical. Larvae feed on roots and tubers. Adults feed on bright colored flowers. 12a-13-6.

Blight—Celery 21; Ornamentals, Garden and Greenhouse Plants 21; Peaches (Shot Hole Fungus) or Almonds 15-22-8 (Nov. 15 to Dec. 15); Potatoes and Tomatoes 6-8.

Brown Rot—Apricots and Cherries 8 (SD); Prunes and Plums 15-22-8 (SD).

Cane Blight—Blackberries, Loganberries, Raspberries 22-8 (D).

Caterpillars—Attack foliage of a wide variety of plants and trees. Spray with 5b-13a or s. Dust with 12a-34a.

Cherry Slug—Cherries and Pears. Dark green worms secrete a slime and look like Slugs. Eat off the surface of leaves, leaving network of veins. 25-13-5B (F).

Codling Moth—(Worm of Apples, Pears, Quinces). Important to follow sequence of sprays. 5 (SD) (F).

Curl Leaf—Peaches and Nectarines. Curling and distorting of leaves. Trees often defoliated. Nothing can be done to cure it, but it can easily be prevented 8-15-22 (SD) 7-33 (F).

Cut Worms—Larvae of night-flying insects. 36-11.

Damping-Off Disease—Treat seed with 13a-35. Treat soil and seedling plants with 13a-35-7-35.

Diabroticae (Green Lady Bugs)—Eat holes in petals of bright-colored flowers. Dust flowers with 13-12a.

Earwigs—Attack plants, flowers, vegetables in the garden, and anything in the house. 4-19-36-37-38.

Fern Lice—Weak solution of 26-(9 & 45) -10a.

Flea Beetle—Tiny blue or green with metallic lustre. Eat away leaves. 13-25-6. Tomatoes 6.

Grasshoppers—Moisten and scatter 36-11-37-38.

Ground Squirrel—Gas with 14. Poison with 31.

Lawn Moths—Distribute 5 lbs. 5 to each 1000 sq. ft. and wash in thoroughly. (See Page 8 Planter's Guide.)

Leaf Beetle—On Strawberries. Dust with 12a-13.

Leaf Hopper—On Grapes. Dust with 14-25.

Leaf Miner—Some call them tracing bugs, because they leave winding white areas on leaves as they feed on the leaf tissue of Cinerarias, Holly, Chrysanthemums, Nasturtiums. Use 20.

Leaf Rollers and Leaf Tiers—Caterpillars, common to Apples, Cherries, Roses, etc., which roll and tie and eat leaves. Dust 12a-13. Spray 10a-5b.

Mealybugs—Waxy, oval, gray, soft bugs found on most plants and frequently in soil. Cottony egg masses. They suck sap from twigs, foliage and roots. Ants distribute them. Use 21a combined with 28 or use 21a-28-20. **Soil Mealybug**—Saturate soil with water, then soak next day with 21a. Some dig 43 into soil. Unplanted beds best fumigated with 14.

Mealy Plum Louse—Plums and Prunes. 9-45.

Moles—Open runway at intervals and put quantity of 14-29-26a-24 in each hole. Close hole.

Mildews—Attack nearly all plants, covering leaves, succulent new growth and buds with a gray, powdery growth. On Apples, Pears, Currants, Grapes, Spray 41-15-22; Dust 40-42. On Garden and Greenhouse Plants and Ornamentals Dust 21-40-42; Spray 7-33-41-22b. On Peaches, Beans and Peas, Dust 40-42. On Cucumbers, Spray 8. On Delphinium, Dust 21; Spray 7-33-22b. On Roses Spray 8-15-22 (D); Dust 21-40-42; Spray 7-33-22b (F).

Morning Glory—Use 44, after sundown.

Oak Moth Caterpillar—Make spray of 3 lbs. 5s in 100 gals. water, add 1 gal. black strap molasses as a bait. (Where sensitive or tender plants are under the Oaks, use 4 lbs. 5b instead.) Apply when Caterpillars are small, March and April for winter brood on Live Oaks. For summer brood spray last half July or first half August. Dust with 12a-13.

Peach Borer—Roots of Peaches, Apricots, Prunes and Cherries. Apply 29 as soon after Sept. 1 as possible. Clear off and smooth ground around tree. Place 1 oz. to each tree in a ring about 2 in. from the tree. Do not let it touch the tree. Cover with dry dirt banked up against trunk and tamp. Trees must be at least 6 years old.

Peach Worm (Peach Twig Borer)—Peaches, Plums, Nectarines, Apricots. Spray 5b (SD). Combine with Curl Leaf Spray.

Pine Tree Borer—Use 16.

Red Berry—Himalaya Blackberries (Blackberry Mite.) Spray 15-22 (D), 33-41 or 28 (F).

Red Spider—Almonds, Apricots, Cherries, Peaches, Prunes, Plums. Spray 15-22 (D). Dust 40 (F).

Scale—On Deciduous trees. 23, (D); 28 (F). Evergreen trees and shrubs 28 (F).

Slugs—Cherries, Pears. See "Cherry Slug."

Slugs, Snails—Moisten and scatter 36-11-37-38-42a.

Sow Bugs—Scatter 39 in dry places. 4-36-11-37-38-42a.

Squirrels—Use 14-31.

Termites—Saturate soil with solution of 44. Treat holes leading to nests with 14-29.

Thrips—Gladiolus. Store corms in paper sacks or boxes with 1 oz. (4 tbsp.) 24 to each 100 bulbs. At planting time, peel corms and immerse for 15 to 20 minutes in solution ($\frac{1}{2}$ cup 22 in 1 gallon water) at temperature of 112 degrees F. During growing period, spray weekly with ($\frac{1}{4}$ lb. 22a, 4 lbs. Brown Sugar, $6\frac{1}{4}$ gals. of water); or (2 $\frac{1}{2}$ tsp. 21a in 1 gal. water). 13a-34a.

Thrips—On Prunes, Pears, Cherries, Garden Flowers. They cause browning of tips of flower petals, and distortion of foliage. Dust with 25-32-34a. Spray with 26-9-20-34-21a-10a.

Weeds—In areas where plant life is undesirable. Use 44. Dandelions and Broad-leaved Weeds in Lawns. Use 44 concentrated applied to each plant. Dilute Sulphate of Iron and apply. (See Page 8 Planter's Guide.)

Weevil—On vegetables. Dust with 12a-19.

White Fly—Larvae. Spray with 20-28. Adults, Dust with 25-32. Under Glass, fumigate with 14G.

Wireworms—Long, slender, smooth larvae which turn into beetles in three years. Unplanted beds, treat with 14. Planted, with 29, mixed in top soil. Must not touch stems.

Woolly Aphis—On Roots. See "Aphis (Root or Woolly)." On branches and trunk of Apples and Pears. Spray with 20-26-(28 & 9).

12—Firm Bulbs, our selection—\$2.50

We grow a large plot of Dahlias to provide for our trade. We never know exactly what the increase will be, therefore we must grow more than we estimate will suffice to fill orders promptly. This enables us to make this attractive offer of large-flowering varieties. We grow only the best, tried and proven varieties, and it is from these that we make our selection. Don't pass this by.

"A WORTH-WHILE SAVING"

6—Flower Seed Packets for Price of—5

Consult the price schedule on Page 34. It reveals the substantial saving in purchasing a number of packets. Based on the same progression, you may choose any 30 packets in the same price range to cost you what you would ordinarily pay for 22 packets.

POM POM—DECORATIVE DAHLIA BARGAIN

(Delivered free)

12—Plump Bulbs, our selection—\$2.25

A half-and-half bargain consisting of 6 choice Pom-poms and 6 select Decorative Large-flowered Dahlias. These beauties will prove a valuable asset to any garden collection of Dahlias.

ROSE BARGAIN

(Postpaid)

12—Strong Bushes, our selection—\$2.75 (6 for \$1.50)

Carefully selected, strong 1½ Grade, two-year-old, field grown bushes. No two alike. Our roses are budded on understocks tested to make the best union and to produce a top with the greatest vigor. It is only because we grow our own roses that we can make this attractive offer.

PREMIUM FREE—

If you will give the names and addresses of five or more of your friends who are interested in Bulbs, Seeds, Roses, Plants, Trees, etc., we will include a GARDEN PREMIUM with your order—as a token of appreciation for your kindness.
